A LEADER WITH INTEGRITY.

WHAT Southern Cameroonians say about President Sako

An overwhelming majority of the People of Southern Cameroons- Ambazonia, are in support of Total Independence, in this regard they have chosen to give in their unwavering support to the Government of Southern Cameroons- Ambazonia led by His Excellency President Sako Samuel Ikome and his cabinet in Exile.

Here are some points advanced by Ambazonians and People of goodwill for their show of support to this Leader;

- 1). His determination to De-colonise, De-annex, De-oppress the nation and her People from slavery in the hands of la Republique du Cameroun (LRC) and Partners.
- 2). President Sako is leading a government which by himself ensures there's Efficiency in resource utilization and appropriate accountability.
- 3). His consistency is a rare germ to find in the world today, amongst the different groups pushing for the liberation of the nation of Southern Cameroons- Ambazonia.
- 4). By virtue of his strong desire to liberate his People, he stands out tall in the history books as the only leader who has survived the many schemes by the enemies (within & without) to cause distractions and eventual surrender so as to bring the liberation fight to an end.
- 5). The dynamic nature of his Personality gives him an upper hand to bring and unite All the People of Ambazonia in one direction, that is Buea where we shall celebrate our total freedom. God bless AMBAZONIANS
Happy New Year 2025!

SOCIETY'S WATCHDOG.

la Republique du Cameroun (LRC) is after him, but he is unreachable.
To say that Lrc is not after him is either a way of sarcasm or dishonesty.
How can we explain the fact that Ayaba frequently visited Lrc if was being sought after? He had a six floor building being erected in

Bonaberi. How can a rebel leader as he claims to be, invest in the enemy's camp?
Lrc trembles at the mere mention of Dr Sako's name, but pretend to make him irrelevant. They vested their hopes on Ayaba Cho Judas to destabilise the freedom quest, and invested in the ADF to bring down the Ambazonian struggle. Ayaba Cho 's arrest orchestrated by Lrc is in retaliation of the latter 's inability to deliver the promises he made.
ADF tried in vain, through kidnappings and murderous acts to turn the population against the genuine freedom fighters to no avail.
The incidences in Guzang and in Mezam county are a pointer.
The ADF's atrocities to the people are exhaustive. Ayaba Cho extorted money from the population through a fictitious "war tax" scheme and fed fat on the sweat of the innocent people. Adf guns kill only Ambazonians including top generals of the Ambazonian State Army.
Dr Sako remains the only true leader who has turned down numerous baits of huge sums of money to betray the Ambazonian cause and sell his people into perpetual poverty and slavery. Lrc knows that he has the trump card. His calls

for lockdowns are obeyed to the letter, and his fund raising schemes churn out colossal sums of money to fund the struggle, sending shock waves through the Lrc oligarchy.
No-one can deny that Dr. Sako Samuel Ikome from Mokunda village in Fako county is the man of the people. Except of course Lrc and paid saboteurs, who after all are failing and failing woefully.
Long live Dr.SAKO, the new Joshua of the Federal Republic of Ambazonia

EVAwasum

"We in home front are strongly behind our President HE Sako Ikome Samuel.long live our President, long live Ambazonia". Mbah Bih
"Nothing will stand on our way Ambazonia must be free nothing more nothing less ahead ahead president Sako Ikome Samuel". Gab Gaius

THE WAR OF INDEPENDENCE

When this war started in 2017 I posited that with the blind arrogance of the regime and it's bellicose rhetoric, the war will be the final nail that will bring the regime down. Just the astronomical cost of maintaining a battalion of soldiers in every division across southern Cameroons is the most expensive venture a poor and highly indebted country should never venture into. Not to talk of the cost of actual fighting, ammunition, managing the dead, etc Eight years on and the coffers of the regime are completely empty. The economic pain increased to unbearable levels and today Bishops who failed to stand on the side of the oppressed and chose to wine and dine with the oppressor are crying, likewise the civil society, musicians, and francophone citizens. The regime was, prior to the war in 2017 already in a mess and the war made it an economic cesspool..... The price the Biya regime is paying for creating a war in the Southern Cameroons - Ambazonia referred to here as NOSO will be the end of the regime itself. That's the price they will pay. The war is the final straw. They don't want to admit it because of blind arrogance and the feeble attempts at some bravado. The war has caused the final collapse of the regime. The cost is just mind blowing and stunning.

happy new year 2025 ABC Networks24

Fellow Ambazonians,
Highly Esteemed ABC Networks 24 Patrons, Club Members, Supporters, and Social Media Warriors,
We would like to take this glorious opportunity to wish you a very happy New Year for 2025. It is with deep gratitude that we thank you for your generous support of our projects, which aim to reach the world through modern broadcasting, multimedia, and the effective use of digitalization in our productions.
Looking back, it is clear that we have achieved significant milestones over the years in broadcasting and providing a voice and global platform for

the oppressed people of our beloved nation of Ambazonia. These accomplishments would not have been possible without your heartfelt donations. For that, we express our sincerest thanks.
If we have come this far, we believe we can go even further. Our vision is limitless in the field of multimedia, and with your continued support and fraternity, we are confident that this dream is achievable.
Thank you once again for all you do for the people's platform, the Ambazonia Broadcasting Corporation.

Happy New Year 2025,
Management

THE ECCENTRICS OF TYRANTS ON THE EVE OF THEIR FALL.

As if intoxicated with palm wine of Power most tyrants tend to think that they are immortals. But as the inevitable hour of death draws near some of these tyrants as testified by history stage a tragicomic relief that leaves psychoanalysts confused. Nero for example on learning that Rome was burning and that he was going to die asked for sacks to collect his imperial tears as he was crying. Adolf Hitler used to bite the carpet on hearing that Germany was losing the war. Mussolini used to smoke cigarettes through his nose and remove the smoke from his mouth. Idi Amin Dada used to dream of getting married to the Queen of England and would literally practice alone how to propose to the Queen. Caligula appointed his horse a governor. On hearing that one of his critics had died a natural death Stalin cried that the man died without his per-

mission. Psychoanalysts in Cameroon are waiting for a quasi lunatics dance on the threshold of despair. Something strange and laughable like wishing for mount Cameroon to be transferred from Buea to Yaounde so as to be buried on Mount Cameroon. Something like making the Episcopal Conference of Cameroon a wing of the CPDM. Or Something like making the first lady the next president. Just something from the land of the absurd that will make Cameroon to answer present in the roll call of autocrats. Where is this autopilot ship of state taking Cameroon in the present stream of Consciousness? Who will be the next Cameroon president for thinking aloud? May God and Destiny have mercy spare Cameroon from another nightmare.

Cameroun « Qui va t'on gouverner quand on aura broyé tous les camerounais dans le Moulinex ? »

Au cours de son homélie du 29 décembre en prélude au début de l'année 2025, l'évêque de Ngaoundéré a comme ses collègues de Douala, Yaoundé et Yagoua envoyé un message aux dirigeants camerounais.

« Qu'est-ce que les camerounais n'ont pas encore enduré ? Comment est-il possible que le mal-être des camerounais ne poussent pas les responsables de ce pays à mettre fin aux trop nombreuses souffrances ? La plus grande des souffrances est qu'on interdit aux camerounais d'exprimer leurs souffrances en

promettant que l'état est un rouleau compresseur, un moulinex qui réduit à la pâte tout camerounais qui osera exprimer sa souffrance.

Qui va t'on gouverner quand on aura broyé tous les camerounais dans le moulinex ? Comment peut-on promettre la mort à ceux qui ne demandent qu'un minimum pour survivre. On demande aux camerounais d'éviter les discours de haine, mais du haut, nous arrive les paroles de violence. »

Emmanuel Abbo, Evêque de Ngaoundéré

Le Ministre des Affaires Etrangères de la République Fédérale du Nigéria au nom du gouvernement et du peuple de la République Fédérale du Nigéria, envoie un message de bonne fête d'indépendance du 1er janvier, à la République du Cameroun, qui a honte de commémorer son indépendance chaque 1er janvier, au point où même le Président de la République du Cameroun n'en fait aucune mention dans son discours du 31 décembre de chaque année.

Nigeria's Minister of Foreign Affairs, Hon. Yusuf Maitama sent a message of congratulation to his Cameroon counterpart, Lejeune Mbella Mbella on the commemoration of 64 years of (French) Cameroon's Independence Day, on January 1, 1960. He promised Nigeria's continued friendship and support to promote peace, prosperity, and progress.

For those who did not know Breaking News makes it abundantly clear that, French Cameroon's Independence Day is the most controversial in African history as they have never commemorated it.

Breaking News sees such avoidance of an important date as such as a misleading attitude toward deliberately trying to hold back the hands of the clock in order to overshadow the commemoration of the Independence Day of the former British Southern Cameroons, which took place on October 1, 1961 which has every year been commemorated amid all the odds, from the repressive annexationist.

CRITICAL ELECTION YEAR IN Cameroon

Ntumfon Barrister NDANGO TAH Calvin calls on the 4th power to play a vital role and ensure democracy triumphs in Cameroon this critical election year 2025, says power to shape the destiny of this country lies in the hands of the youth...

Ntumfon Barrister NDANGO TAH Calvin/SDF National Legal Adviser/Peace Crusader in his new tear message to the press, intimates men and women of the fourth estate that : “This year is a crucial election year, and we count on the press to play its vital role in ensuring that democracy triumphs, and justice and peace prevail in Cameroon...”

Happy New Year to Members of the Press
Dear Members of the Press,
As we usher in 2025, I extend my warmest wishes to you all for a year filled with success, health, and fulfilment. No one can overlook the remarkable work you do for society. You do not only inform but also educate and advocate for justice and peace, values that are critical to our nation’s progress. I take this opportunity to express my gratitude to every one of you—whether in the audiovisual, print, or online media. Your tireless efforts in informing and educating our people are commendable, and as we face the challenges ahead in 2025, I encourage you to keep up the good work.
This year is a crucial election year, and we count on the press to play its vital role in ensuring that democracy triumphs, and justice and peace prevail. We shall continue to advocate for greater press freedom and better protection of journalists, whose contributions remain indispensable despite the risks they face. We remember the instances of harassment, intimidation, and torture that some of you have endured, and we stand with you in the fight for a safer and more secure working environment.
As you carry out your duties, remember that the information you publish carries consequences and that posterity will be your judge. Approach your work with integrity and a sense of responsibility, and continue to educate Cameroonians about the importance of building a new and prosperous republic.
Thank you for your dedication, and may God bless you abundantly.

In his end of year message to the youth of Cameroon Ntumfon Barrister NDANGO TAH Calvin did not mince his words as he pointed out that “Cameroon stands at a crossroads, and the power to shape its destiny lies in your hands...”

Dear Youths of Cameroon,
As we come to the close of another year, let us take a moment to reflect on the journey we have travelled together and the road ahead. This Christmas season is a time of hope, renewal, and unity—a moment to recommit ourselves to building the future we dream of for our nation.
Cameroon stands at a crossroads, and the power to shape its destiny lies in your hands. You are the heartbeat of our country, the force of innovation, and the architects of change. This Christmas, may the spirit of peace, love, and renewal inspire you to rise above challenges and embrace the responsibility of shaping the future.
The status quo may feel overwhelming, but change is possible when we work together. Now more than ever, Cameroon needs its youth to take an active role in politics and governance—not for personal gain but for the common good. Let us fight for justice, equality, and progress through peaceful and democratic means.
Let 2025 be a year where our voices are heard, our actions are deliberate, and our unity is unwavering. Register to vote, participate in civic activities, and advocate for policies that benefit our communities. Be the change-makers, the reformers, and the leaders this nation so desperately needs.

As we celebrate the birth of Christ and the spirit of hope this Christmas, may we be filled with a renewed commitment to transforming Cameroon into a nation where every citizen thrives. Together, we can build a future where the dreams of our youths become the reality of our nation.
Wishing you all a Merry Christmas and a prosperous New Year filled with purpose and progress.
With hope and determination,

Ntumfon Barrister NDANGO TAH Calvin/SDF National Legal Adviser/Peace Crusader

IT MAY BE THE CAMEROON BISHOPS NEED A DEVIL'S ADVOCATE:

To deconstruct the political madhouse called Cameroon, the Cameroon bishops may need a devil's advocate
It should be noted that just an Advocatus or a Diaboli advocate for a murderer is not necessary a murderer, a devil's advocate in Catholic Ecclesiology is not necessary a devil. A Devil Advocate in Catholic Ecclesiology is rather a righteous Theologian who is chosen by the church to expose the devil's possible interpretation of a particular point of doctrine under discourse. Just as the devil may have his argument for wrecking havoc on humanity, the Cameroon government may have their reasons for wrecking havoc in the country for over

42years. Let the Bishops chose one Bishop among them to justify the evil regime as a thesis in the diabolic dialectics the hate of state is god. Then the Bishops will provide a counter anti thesis showing the limitations in the CPDM hypothesis is satanic. The final document that will come out as the Bishops declaration will be a synthesis to the effect that though the state and the church ought to work together, the church has a divine mission to correct the state. To deconstruct the political madhouse call Cameroon, the Bishops first ought to study the ontology of hell. There are no more devils in hell. They are all in Cameroon. BLT

It is curious to find out that the people governing Cameroon are of low academic accomplishments with significant lapses in moral integrity. Also, the constitutional apparatus of the industry (Cameroon) is composed of individuals almost in their 90s. Cameroon is destined to face substantive hardship until 2032. The rational is due to lack of loans from the IMF, World bank, ECB and AU. Creditors find it hard to comprehend how people in their 90s could manage a country with an average age of 28. I have NEVER disclosed my Cameroonian heritage to fellow intellectuals of non Cameroonian descent.

Let us Pray.
Fred Perry KEMAH.
Houston, Texas, USA.

REFLECTIONS OF THE PHILOSOPHER BAWE LOUIS TARAWO -BLT
TELLING THE NAKED TRUTH TO THE CAMEROON BISHOPS.

The Spiritual affiliation between nakedness and Truth is familiar to the Bishops. The nakedness of Jesus undressed at the 10TH station of the cross. There is truth in the nakedness of the crucified Christ. There is truth in the nakedness of prophet Jeremiah. There is truth in the nakedness of the new born Jesus lying in the manger. The naked truth is that Cameroon is naked. This spiritual nudity like that of Adam can only be clothed with the divine question Cameroon who told you that you are naked with all the resources and talents? There is psalm which King David prayed naked and his enemy died. The Bishops of Cameroon know the psalm. I will not mention it here less jealous angry women may pray it and their husbands die. Let all the Bishops of Cameroon fast and then at midnight each in his room stand naked and pray this psalm and let the enemies of Cameroon die. Let us go into the spiritual war naked before God crying. God do not give Cameroon your beloved Dove to the Hawk. Naked I came before your throne lord. Naked I will not go back.

PUBLIC ALERT

Never you have a dispute with someone now in Bamenda and separate without making peace.
Don't even argue with anyone. If a bike rider pushes you or any other person, be the first to apologize. The rate of scores settling now is alarming. Avoid disputes about land, women, succession, village hierarchy or governance. Avoid church politics Now in Bamenda, someone can admire your wife and organize your killing to take her. Even amongst colleagues, avoid bad temper and intrigues.

DEMOCRACY: THE WESTERN GOD
THAT FAILED IN AFRICA.

Any government like any human enterprise has its limitations. However the popularity enjoyed by democracy has made many Africans blind to its limitations. This is so they had tried to apply it to Africa without modifying it to suit the African situation. Though a human being like the white man, the African thinks differently. For example after a good meal the white man rinses his mouth and then spit out the particles of food. The African on the contrary after rinsing his mouth from a good meal swallows it. This applicable to the art of governance. While the white man considers democracy as the best form of government, the African thinks that even God as the most perfect being is not a democrat. God did not consult any one before creating the world. So democracy was destined to fail the African because it was based not on sound Metaphysics but on the whims of an ignorant majority. The best of things cannot be in the majority for the simple existential fact that the best by definition is few not majority. To worsen the issues the heterogeneous nature of the African Tribalism renders any so-called democratic election nothing else but ethnic census. So next. What should Africa do now at the threshold? My Answer is benevolent despotism like the one of Troare in Burkina, Goita in Mali. Let us spare the common man the empty rhetoric of empty ballot boxes. Stop wasting the common man's time and means on senseless campaign. Remember that it was by Democracy that Jesus was killed. Preferring his chair Pilate washed his clean hands of democracy turned his back on the truth and left the innocent on to the mercy of the ignorant majority. I reserved my freedom to despair about democratic fees and fear selections in Africa

BLT

WATCH YOUR TONGUE

Limit what you joke about. It may be the wrong joke or a joke at the wrong moment or at the wrong time.
Stop talking things that don't concern you.
Live like a coward now in Bamenda. That is how you will survive jealousy and bad faith, conspiracy and demagoguery. That is how to live another day. Those with cars, if a colleague has booked a bike and you arrive the scene, don't allow him/ her to board the bike. When you find yourself in that situation pay for the bike and carry the colleague.
Take WhatsApp exchanges with caution. Avoid talking commenting or writing on issues that may land you in trouble.
Please take the above with the severity it deserve. We are losing lives at an abnormal rate

Life is called "NOTHING".

Each one of us arrived one day in this world with Nothing.
During our sojourn on earth, we fight against everything, for everything and we want to have everything.
We fight against everybody, including nature which we met.
We want to absolutely love well. We build houses, we buy cars, we get married and have children.
We quarrel, sometimes, violently, with our brothers, sisters, friends and neighbors. We even hold grudges against them. We don't tolerate anything. Then, one day, we go back the same way we came, with "Nothing".
The way people are departing makes us think that in 100 years, that is by the year 2124, all of us would have left this world. We will all be under the soil with our parents, friends, wives, husbands and even the children who are being born today. Others will live in the houses we constructed with so much sweat and toil and even fights. They will inherit our today 's property and we'll no longer be there to permit or prevent them. They, themselves, will not even know us. Truly speaking, who amongst us know the father of our grand father? It's difficult to know. We will be part of the history in the memories of our generations. People will forget our names and even how we looked.
It's important, at this moment for us to realize how the dream of having everything in life, sometimes at all costs, is presumptuous and absurd. We will also realize that most of the fights we fought were useless, that all the insults and hate speeches, the quarrels with brothers, sisters, friends, neighbours and colleagues were unnecessary because the end is the same for everybody: the ground you are moving on today will become your roof tomorrow. Whether you are the Head of State or the Supreme Pontiff! There's no V.I.P space under the earth for winners of trophies or for people who were rich on earth. Seen under this prism, many people will wish to return to earth to do more charitable works but it will be too late. Let's keep in mind today that we have the possibility to do good to ourselves and to others because the only thing that will last for all of us, are the good works we do in this life. Every other thing is vanity. We still have time. Let's stop all the hate. Let's change our way of behavior inside this ' bus' because we're on the same journey to the same destination. There's still time for us to turn and look at each passenger in the eye and say ' good morning ' brother, sister. Because we're on the same journey, in the same bus to the same destination... And because we'll all return with "Nothing".
Happy and Prosperous New Year 2025.

NO ROMAN CATHOLIC CHURCH IN AMBAZONIA BUT AN INDEPENDENT AMBAZONIA CATHOLIC CHURCH .

Given the continuous drifting of the Roman Catholic Church towards satanic practices like the training of gay priests and to use such gay priests to spread gay practices among catholic faithful and also the solemnisation of gay marriages in Roman Catholic churches, , some of us conservative Christians, shall strongly advocate for an independent Ambazonia Catholic church not answerable to the Pope in Rome but answerable only to her Ambazonia Catholic Christians through local elected leadership as obtains in the Presbyterian and Baptist churches and also in Islam. There are no leaders in the Presbyterian church, the Baptist church, nor in the Islamic mosques that are appointed from abroad and imposed on the mem-

bers. With the continuous drifting of the Roman Catholic church towards satanic practices, it is evident that sooner or later the Pope in Rome who is promoting these satanic practices will start appointing gay Priests to all countries and especially to Africa, to help in the spread of such satanic practices amongst catholic faithful in various countries. To stop this abomination from being spread in Ambazonia, some of us conservative Catholics shall vigorously advocate that no religious movement or churches in Ambazonia be controlled from outside Ambazonia. All religious movements and churches in Ambazonia shall be independent of any foreign control, and their

leaders shall not be appointed from abroad but shall be elected into office for a limited mandate of service by their Ambazonia followers. After all, there are no mentions in the bible, the Quran or any other religious books, that provides that religious leaders must be appointed by some foreign countries and imposed on followers in other countries. This is what obtains in the United Kingdom. There is no Roman Catholic church in the UK, and there is no church or religious movement in the UK with leaders appointed from abroad.

Elangwe Joseph

Miki MUST Deliver the PCC from the Mess Fonki has plunged the church into

Dear Friends! A very important part of being a Pastor is the work of discovering God’s purpose for our lives, our vocation... The recent transition in the PCC has given all of us the opportunity to press the reset button on our lives and to reconsider those deep questions of vocation. Dear Members , The greatest challenge we all have as PCC Christians is to expose and uproot the criminal gang Fonki has surrounded the new moderator- elect with. I have talked with some of our Pastors and they all expressed this as their major preoccupation. Fonki tentacles are very deep around the new Moderator and they are all bent at choking and manipulating him. I will suggest that, the Truth House takes this as our major preoccupation and see how best we can han-

dle and dismantle the gang. We all know that the KEY PLAYERS, manipulated the elections to have the new Moderator elected, believing that he will protect the gang and they will continue with their evil practices, that has taken the church hostage. The different caucuses may come up with problems facing some of our congregations and propose solutions to them to be forwarded to the synod office but as long as the evil gang is still there nothing will change. He is still hanging in the Synod compound under the guise of "I am with my wife who is communication secretary". It's a very simple thing to dismantle provided the new Moderator wants else his tenure will be a mess. .if he has to stay in the church premises under the pretext that the wife is communication

secretary he should stay in the house meant for the Communication Secretary. The new Moderator will have to take responsibility to deliver the church out of the disaster caused by Fonki. If he wants to remain entangled in Fonki's chains, he will harvest the legacy of a useless Moderator who had no vision and cannot lead. And he himself will not find it easy because our eyes are open. I AM PCC will not just sit and watch another 5 years wasted by bad leadership. Our eyes are all open. Cameroon is changing for good .Gullibility is becoming history. The citizens, just like the Christians have taken too much in silence. Evil must be exposed and made public. Enough is enough.

Multitudes paid homage to Princess Julia Mankah Fokum Ndefru in Yaounde and Bamenda

Princess Julia,a woman of exemplary character who impacted lives as exemplified through sermons and eulogies first at her wake keep at TamTam Weekend, followed at a befitting funeral service in her honour at Presbyterian Church Bastos Yaounde, culminated at her final resting place where she is now resting with her ancestors at the Mankon Palace – Bamenda.

Celebrating the life of Princess Julia Mankah Fokum Ndefru,
A WOMAN OF VALOUR called to eternity.

At Funeral service PC Bastos

At Funeral service PC Bastos

At wake keep

At wake keep

The Dumbo Sons and Daughters Development Association, DUSODDA, a leading village development association in Ako Subdivision of Donga Mantung Division in the North West Region is proud to announce its remarkable achievements in community development over the past 20 years. This is the reason for the celebration on the 14/12/2024 in the premises of Sikam Hotel, Yaounde during the Annual General Meeting of the association. This event which was attended by all the indigenes of Ako Subdivision resident in Yaounde had as main focus the presentation of activity reports from the regions and the identification of projects for 2025. According to the National Coordinator of DUSODDA, Mr. Mbe Augustine, the association has been at the forefront of all sustainable development initiatives in the village since its inception in 2004. With a strong focus on education, healthcare, economic empowerment, and infrastructure development. The associa-

tion has made significant strides in improving the quality of life for all individuals and families in Dumbo - Berabe.

Some of the association's key achievements worth mentioning include:

- The construction of a multipurpose hall in the village
- The construction of a three-classroom building in GSS Dumbo - Berate
- The construction, in collaboration with Caritas Kumbo, of a water supply project in the Dumbo
- Assistance to educational and religious institutions in the village notably the GS Dumbo, PS Berabe and the PC Dumbo.
- The construction of a wooden bridge over River Kufote to facilitate the evacuation of farm produce and the movement of pupils to and fro GS Dumbo.
- Assistance to the Berabe Integrated Health Centre in the transportation of health equipment and materials donated to the health centre from Bamenda to

Dumbo

– For 20 years, the association has been up to date in all its commitments with other development associations notably with the mother association MBECUDA. In a chat with Breaking News, the national coordinator said: "We are proud of our achievements, but we recognize that there is still much work to be done," quipped the National Coordinator, Mr. Mbe Augustine. And went further that; "We remain committed to our mission of empowering the members in and out of the village especially the youths and transforming lives of all persons resident in Dumbo village, and we look forward to continuing our work in the years to come." Regarding DUSODDA future, Mr. Mbe Augustine the National Coordinator intimated that: "In 2025, the association intends to carry out solar electrification of some streets in the village and the sponsorship of some youths in professional vocational training programmes." Amongst others.

Benefits of thieves in society...

A teacher at a school told the children to write an essay on "Benefits of thieves in the society." An SS 3 student wrote his essay like this:

- ☐ "Thieves are the backbone of a country's economy."
- ☐ People may think this is a joke or a mistake, but it is actually something to consider.
- ☐ Safes, cupboards, and locks are needed because of thieves. This gives work to carpenters and the companies that create them.
- ☐ Because of thieves, there are grilles on the windows of the house, there are doors, the doors are locked, not only that, there are additional gates or collapsible doors outside for security. That's why many people get work to produce these items.
- ☐ Because of thieves, fences are built around houses, shops and other buildings; Gates are installed, guards are employed to be at the gate 24 hours a day, and there is also need for uniforms for the guards for which tailors get to work..
- ☐ Because of thieves, there are not only CCTV cameras and metal detectors but also cyber cells, thus creating work for the producers of these items and working for their employees.
- ☐ Because of thieves, there are policemen, police

stations, outposts, police posts, patrol cars, batons, rifles, revolvers, and bullets. All these create employment and also work for the manufacturers.

☐ Because of thieves, there are courts, judges, lawyers, alklis, clerks, and bailiffs in the courts. That's why many people get jobs.

☐ Because of thieves, there are prisons, warders, the police, and detectives for jails. That's why many people get jobs.

☐ When mobile phones, laptops, electronic devices, bicycles, and vehicles are stolen, people buy new ones. This buying and selling strengthens the country's economy and gives jobs to many people.

☐ If a thief is highly recognized and famous, then the media in the country and abroad also make news of him and earn their living.

☐ After reading all this, you will definitely be convinced that thieves are the backbone of the entire government system and a means of livelihood for many people in society.

Happy New Year, beloved

Don't laugh alone.

Family Isaiah Kimbi (Ta Shey) of Mbibu Tabenken thank God for healing mercies, donates cement for the construction of Presbyterian Church Bondu – Tabenken.
This happened on Sunday December 22, 2024. The ceremony was officiated at by Rev. Pastor Samuel Takor Itoe, parish pastor of Kudu Tabenken

Le retrait des Etats-Unis de l'OMS serait "catastrophique (expert)"

L'équipe de transition du président élu américain, Donald Trump, cherche à retirer les Etats-Unis de l'Organisation mondiale de la santé (OMS) dès le premier jour de la nouvelle administration, selon des experts qui mettent en garde contre l'impact "catastrophique" que cela aurait sur la santé mondiale, a rapporté dimanche le Financial Times (FT). Des membres de l'équipe de M. Trump ont confié aux experts leur intention d'annoncer un retrait de l'OMS lors de l'investiture du président élu le 20 janvier prochain, a précisé le FT, notant que ce départ supprimerait la plus grande source de fonds de l'OMS, ce qui nuirait à sa capacité de répondre aux crises de santé publique telles que la pandémie de coronavirus. Le plan de retrait des Etats-Unis dès le premier jour serait "catastrophique" pour la santé mondiale, a estimé Lawrence Gostin, professeur de santé mondiale à Georgetown Law, cité par le FT. Selon M. Gostin, il y aurait "des années de vaches maigres pour l'OMS, qui aura du mal à répondre aux urgences sanitaires et devra réduire considérablement son personnel scientifique".

WHO SHALL BE THE NEXT PRESIDENT OF CAMEROON?

It was the sage Confucius who said the fool waits for the dawn by standing on one spot and cursing the dark but the wise man waits for the dawn while moving towards the east. I therefore invite the Cameroon optimists to look towards the east for the next president if we are to preserve this our patchwork heritage of nations call Cameroon. If the next president of Cameroon is not chosen with an oriental orientation, I fear that the sovereignty may be jeopardized and we fall asunder. If power is given to the North, the Islamic penchant for vengeance will let Muslim brotherhood avenge the victims of the 6th April coup d'état on the Tribal Republic of Betibululanders. No April fool as the next president of Cameroon. If the Next president comes from the West Region, it will canonise the Sovereignty as both political and economic power will be in the hands of the Bamelikes. They already have much land all over Cameroon. The next president should

never be in famla. If the next President is from the Southern Cameroon, Cameroon sovereignty will lose it buttocks as the thirteen white seagulls dance to the rhythms of the ambasbay makossa. If power returns to the South then the sovereignty of Cameroon is for ever loved to the tribal republic of the Betibululanders. To save Cameroon from disintegrating as Poland once disappeared from the map, the next president should be from the East. Let him be a short pigmy with advanced levels but with good heart and knowledge of hunting skills in the forest. Armed with wisdom gotten from the school of nature study in the forest, with no ambition for wealth and cheap popularity, with little knowledge of past grievances, the pigmy will better rule Cameroon than all the corrupt elites. If you doubt me look at the simplicity that today rules Senegal, Burkina, Mali and Niger. May God give Cameroon a simple wise man from the East as the next president. There's Wisdom in sometimes listening to dissenting or non conformist voices. 43 years is a lifespan. For Mr Biya 43 years is just the time spent as the absolute ruler of Cameroon. He has spent close to 70years working and 93 years on earth living. It's a long time. Biya came to power be-

cause his predecessor listened to a piece of advice that might not have been good to his ears. He was told power was no longer good for his health and he graciously handed over to Mr Biya. In 2008 one of Mr Biya's aid Marafa Hamidou Yaya told Mr Biya another mandate would be one too many. This was a sacrilege to Biya. He ensured Yaya would spend the rest of his life on earth in the gestapo dungeon of kondengui. He then went ahead and scraped the two term limitation proviso in the constitution, brutally crushed street manifestations and successfully added another 17yrs as president while clocking 93yrs on the wake. In 2025 Biya finds himself in a similar but more intense situation of dissenting voices calling upon him to replicate what his predecessor did... Graciously handover. Bishops, musicians, members of his own party, etc all calling on him to step down. Parasites of the regime are imploring him to hang on at 93years. Biya has for 43 years been listening exclusively to voices that please and sooth his ears and ego. There's wisdom sometimes or for once in life, listening to voices that irritate the ears and dare your ego

That Groundbreaking Tabenken Cultural festival code named Mfee Tangmbo

Coming after the last cultural jamboree that took place at the Catholic School field in 1997, the 2024 festival entered into the annals of history books in terms of mobilization as multitudes drawn from every nook and cranny of the country stormed Tabenken from December 17 – 20th. Organized under the auspices of the ministry of arts and culture on the theme “Celebrating Cultural heritage & enhancing sustainable development, peace & harmony in Tabenken” the spell bounding event in spite of the challenging war situation wrote its name on the sands of time as testified by the divisional delegate of arts and culture for Donga Mantung, personal representative of the minister Mr Cyril Penn who admonished that it was a platform for Tabenken sons and daughters to go back to their (roots) customs, break barriers by improving cultural heritage and promote peace, love and harmony not only in Tabenken but beyond. The smug Professor Julius Tata Nfor President Gen-

eral of the Tabenken Cultural and development association – TACUDA acknowledged that the event registered a major success in terms of massive turnout and the showcasing of the cultural savvy of the people. Julius Tata Nfor paid tribute to departed sons and daughters from the last cultural week till date and called on the ministry of arts and culture to open a digital museum in Tabenken and considering the ever growing population, requested for the reclassification of the fondom by raising it to second class and upgrading the six quarter heads to 3rd class chiefs and finally urged the powers that be to raise Tabenken, which happens to be one of the largest and thickly populated villages in the grass fields to an administrative unit. The Fon of Tabenken HRH Fon Polycarp Ndiboti Ngwayi who was unavoidably absent speaking through his spokesman Ta Shey Ndukong Joachim, begged for forgiveness if in his reign he had wronged anyone. The fon called for unity and encouraged both men

and women to embrace farming the livewire of every community and finally urged Tabenkenians to moderate alcohol intake. “For Tabenken to achieve sustainable development, let Tabenkenians shun hatred, jealousy, greed and envy and embrace love” this message was contained in a soul searching sermon preached at the ceremonial grounds at the Tabenken fon’s palace by the Rev. Kimbi Emile Nfor, parish pastor of Presbyterian church Tfum - Tabenken, The closing ceremony was presided at by HRH Fon Charles Kamanda, of Talla, Tang Clan Head and president of Wimbum Fon’s Union who himself was flabbergasted by the wonderful and very successful organization and did not stop at urging Tabenkenians from keeping the flame burning in total synergy as a pacesetter for other villages to emulate. Apart from cultural manifestations, showcasing of artefacts, culinary endowments, other attractions included sporting events and award of trophies.

For Sale

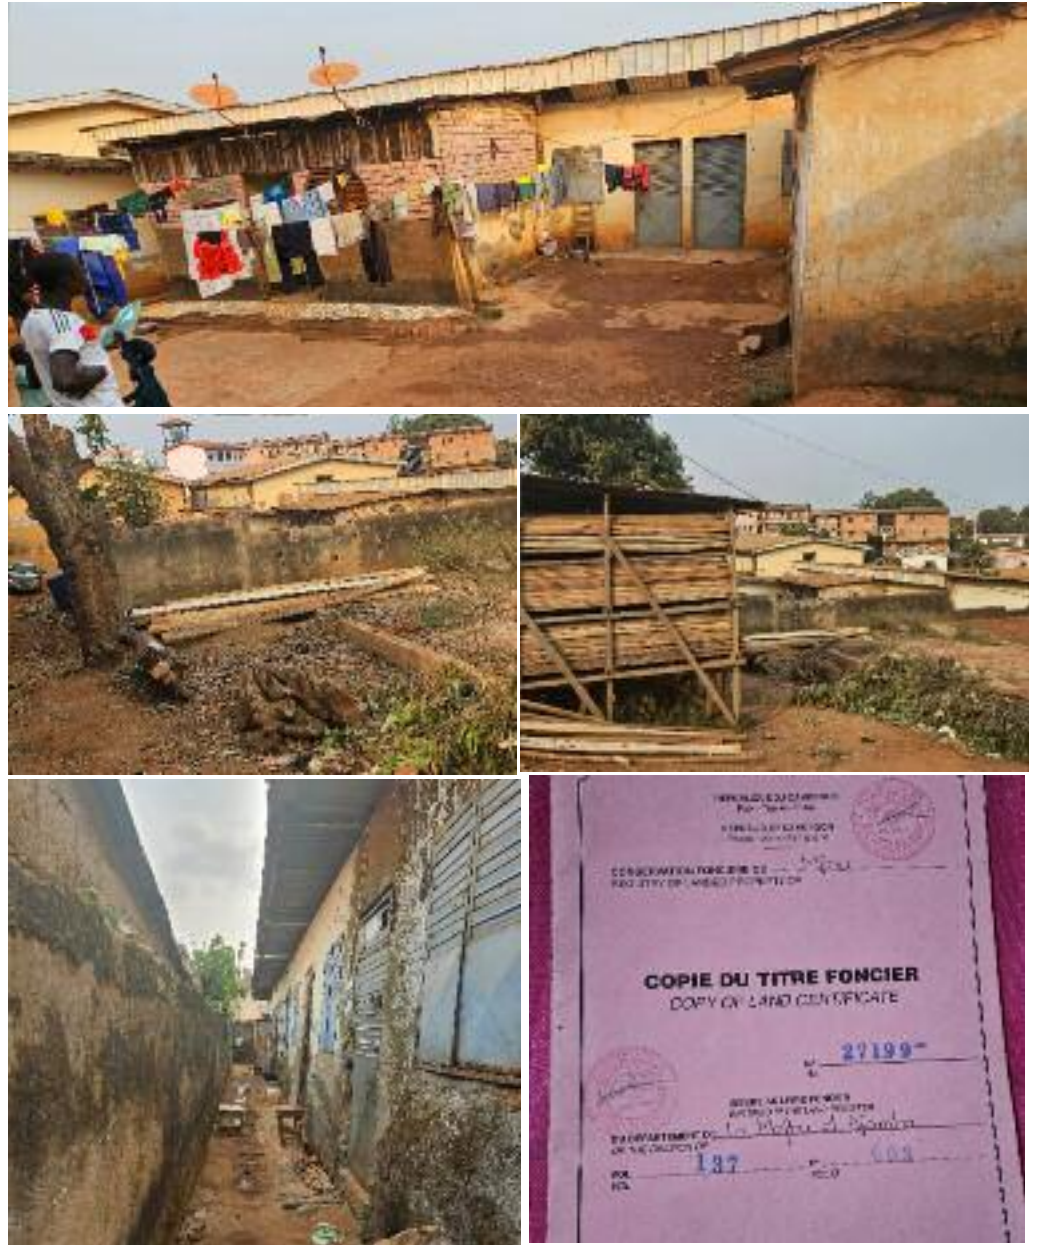

This house on 300m2 maetur in Nyom Yaoundé, 100m from the tarred road is for sale at fcfa 130m a little negotiable
